Subject: Request: Suggestions & Feedback for Drafting the Methodology Document by May 14th

Good Morning, Everyone,

As a follow up from our meeting last week, I want to reiterate that the purpose of the ELDT's work is to respond to Objective I of the EJ2020 Action Plan (i.e. identify concentrated geographic areas with the most overburdened communities where lead exposures are highest).

Ex. 5 Deliberative Process (DP)

impact childhood EBLs in particular and link this risk factors with surrogate data and peer-reviewed scientific literature.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

At this point, we are requesting any suggestions and feedback from the ELDT to guide the subcommittee in drafting the methodology document (particularly examples of multivariate models or best practices for data quality control or suggestions for questions that should be included in a decision tree). Once the subcommittee has written a working outline

of the methodology document, we will send this to the ELDT to review and provide feedback. Please send me any suggestions by COB Monday, May 14th, and the subcommittee will review them.

We really appreciate the time and effort everyone has put into this work so far, and encourage everyone who is interested to join the subcommittee to help further guide this process.

Thank you,

Amanda
